院长致词

A Message from President

2013年，医院的各项工作稳步推进，有序发展。医院门诊急诊数继续保持在220余万人次，出院病人人数突破3.5万人次，住院手术数逾1.6万人次。教学、科研指标继续攀升，全英文儿科学课程入选上海市示范课程；儿科学入选上海市重中之重临床重点学科；科研中标项目纵向基金47项，横向基金11项，经费近5900万元；在*European Heart Journal*, *PLoS One*等重要国际学术期刊发表SCI收录论文120余篇；新生儿缺氧缺血性脑病、早产儿护理、胆道闭锁、川崎病冠状动脉病变等研究取得重要进展，获中华医学科技奖、中华护理科技奖、教育部和上海市等多项科技奖励。在中国最佳医院专科排行榜中，综合排名首次居全国儿童医院榜首，儿内科继续名列第一，儿外科继续名列第二。

今年4月份人感染H7N9禽流感肆虐，我院发挥“国家队”的重要作用，体现了高度的社会责任，防控工作得到刘延东副总理等各级领导的充分肯定，并获得国家卫生计生委授予的“防治人感染H7N9禽流感表现突出单位”的光荣称号。

基本建设方面，完成了优化物理空间的“二次规划”并在逐项实施；科研楼建设也已正式启动，计划在2015年建成。值得一提的是，新获批“上海市出生缺陷防治重点实验室”建设项目，该实验室将与原有的卫生部新生儿疾病重点实验室形成合力，成为我院“支撑学科、服务临床和转化研究”的重要基地。

2013年，在医院管理方面推出了2部重头戏。一是正式启动JCI认证准备工作，梳理、完善和建立一系列国际标准的制度和流程，促进持续质量改进，推动医院管理标准化、国际化。二是推出“关注患儿就医体验”三年行动计划，推出十大项目，提升病人满意率，增强员工的职业荣誉感和认同感。医院顺利完成国家质量安全情况年度评价评审工作，专家组对我院“医疗质量、安全、服务、管理与绩效”等五个方面进行全面检查评估，对我院的工作给予高度评价。

回首旧岁，心潮澎湃。这一年，儿科人依旧忙碌、依然自信，护士站里的笑脸，病房里匆匆的脚步，无影灯下年轻的和不再年轻的背影……每个人用智慧和汗水见证了医院的成长。感谢每一位儿科人的辛勤付出！

展望新年，信心百倍。新的一年，“春风得意马蹄疾”。让我们借十八届三中全会东风，同舟共济，奔腾前进，共同创造儿科医院更加灿烂辉煌的明天！

The past year of 2013 has witnessed the great progresses made in the development of Children's Hospital.

In medical practice, we pediatricians still maintained the record of receiving 2,200,000 outpatients and emergency patients, breaking the record of 35,000 discharged patients and of 16,000 surgeries. In medical education and research, we also made great achievements and accomplishments, as indicated by a rising trend in comparison with those in

2012. What a great honor it is for us to have the course of pediatrics recognized as a model curriculum in Shanghai and the discipline of pediatrics as a key clinical specialty. We won 47 longitudinal funds and 11 transverse ones for medical research in the total amount of RMB59,000,000.00, publishing 120 SCI papers in *European Heart Journal*, *PLoS One* and others, and receiving national, ministerial and municipal awards for the significant accomplishments in hypoxic-ischemic encephalopathy of newborns, nursing care for premature infants, biliary atresia, and Kawasaki disease with coronary artery disease. Thanks to such arduous endeavors, Children's Hospital has topped the counterparts for its comprehensive capability for the first time, the discipline of pediatric internal medicine still ranked the first and pediatric surgery the second in China.

We had the privilege of working on H7N9 avian influenza in April of 2013. As responsible citizens, we did much to prevent and control the bird flu, which was highly recognized by Vice-premier LIU Yandong and other authorities concerned. For our effective efforts, the Ministry of Health and Family Planning Commission conferred the title of Outstanding Hospital in Preventing and Treating H7N9 Avian Influenza on Children's Hospital.

As to the basic construction, quadratic programming of maximizing and optimizing the physical space was put into effect; the building for medical research was put under construction (to be completed in 2015); Shanghai Key Laboratory on Preventing and Treating Birth Defects was authorized for construction, as an important base of advancing pediatrics, serving the clinic and practicing translational medicine.

The year of 2013 also witnessed two shining feats in the management of the Hospital. The preparations for JCI approval were officially launched to adopt a series of the international standards for managerial improvement. Additionally, a three-year action plan for empathy on the part of the pediatrician was initiated for total quality improvement and overall patient satisfaction. As a result, the Hospital succeeded in the QS appraisal by the state, which covered quality, safety, service, management and performance. During the evaluation, our achievements and accomplishments were highly recognized by the panel.

We pediatricians take pride in the collaborative efforts we have made in the past year of 2013. We will continue to embody our basic mission to care for children in our dedicating efforts, confident skills and acts of kindness. It is our collective endeavors that push Children's Hospital forward.

Inspired by the 3rd Plenary Session of the 18th CPC National Congress, we are confident in building further Children's Hospital.

Promoting Reforms and Innovations

2013年，复旦大学附属儿科医院将加强精神文明建设，提高患者满意率和职工凝聚力作为重点工作来抓。深入开展党的群众路线教育实践活动，召开各类座谈会，深入群众，了解患者和医务人员反映的突出问题，同时在全院党员中开展多种形式的学习教育。医院继续开展各项评优评先活动，推进文明单位创建工作，连续七届荣膺上海市文明单位。在丰富医院文化生活方面，除了延续医院的老牌文化活动，更开拓渠道，开通“员工直通车”、“相约星期四”，倾听职工的声音，探索开展“家庭电影日”等新的文化项目。医院围绕和贯彻上海卫生系统推出的“精细化”10条服务举措，以“一切为了孩子”为核心，以“扎扎实实为群众服务，提高患者满意率”和增强职工凝聚力和荣誉感为目标，2013年3月24日正式推出“关注患儿就医体验”三年行动计划项目，并成立全国卫生行业首个“患儿体验部”，项目具体包括10个子项目，目前在如火如荼如期进行中。进一步落实党风廉政建设，严格执行“三重一大”集体决策原则，成立儿科医院廉政风险防控工作领导小组和工作小组。在院内职能部门开展职权风险防控工作，杜绝职权的风险。与经销单位召开廉洁会议，进一步加强新任中层干部的一岗双责、廉洁自律的意识，同时，利用医院信息平台，推进“统方”监管，健全和完善“统方”管理制度。儿科医院核心竞争力进一步加强，向着建设亚洲一流的儿童医学中心的目标更近了一步。

The year of 2013 witnessed the arduous effort we pediatricians made in constructing spiritual civilization, building the CPC members, addressing the prominent problems and promoting patient overall satisfaction. Thanks to the cultural construction as indicated by a series of theme activities on the part of the staff, we won the title of Children's Hospital as Shanghai Civilized Unit for the 7th time on ends. On March 24, 2013, we were proud of ourselves for pioneering in launching a three-year action plan for empathy on the part of the pediatrician in the country, a program that would be made up of ten corresponding projects under a newly established functional department. In building the CPC members, we ensured the progresses by establishing a leading group and a working group, respectively, to guarantee the collective decision-making principle, to prevent and control any form of power abuse and corruption and to reinforce the management in the Hospital.

Looking forward embracing the year of 2014, we take great pride in our foregoing efforts in building Children's Hospital to be one of the top-ranking hospitals in Asia.

The best managerial recognition derives from overall patient satisfaction.

The basic role of medicine is to apply the advanced technologies to cure.

The ongoing pursuit is to introduce JCI managerial system to Children's Hospital.

The primary objective is to build better medical management and service.

推进 JCI 管理体系 Advancing JCI Managerial System

JCI 是国际医疗卫生机构认证联合委员会 (Joint Commission on Accreditation of Healthcare Organizations 简称 JCAHO) 用于对美国以外的医疗机构进行认证的附属机构。JCI 标准是全世界公认的医疗服务标准，代表了医院服务和医院管理的最高水平。正因如此，涵盖 368 个标准、1223 个衡量要素的 JCI 评审成为了儿科医院今年工作的重中之重，在最短的时间内顺利通过全球最高医疗标准 JCI 的认证是儿科医院全体员工的工作目标。

我院组建一支有 70 人左右的 JCI 联络员队伍，设立 JCI 专项基金，并制定 JCI 联络员工作职责、工作制度、例会制度等一系列条例规范。针对基线评估结果，梳理出全院的行动计划、归纳制定全院 JCI 工作计划表，为把握各项工作时间节点，绘制甘特图，全院各章节、各部门制定部门的行动计划与甘特图。制作图片墙报，更好把握各项工作推进进展，把握时间节点，有序推进各项工作。

Join Commission Internal (JCI), attached to Joint Commission on Accreditation of Healthcare Organizations (JCAHO), deals with authorization and authentication in the world. JCI is well recognized in medical practice for its 368 standards and 1223 measurements. It is a priority for the staff of Children's Hospital to be authorized and authenticated by JCI in the near future.

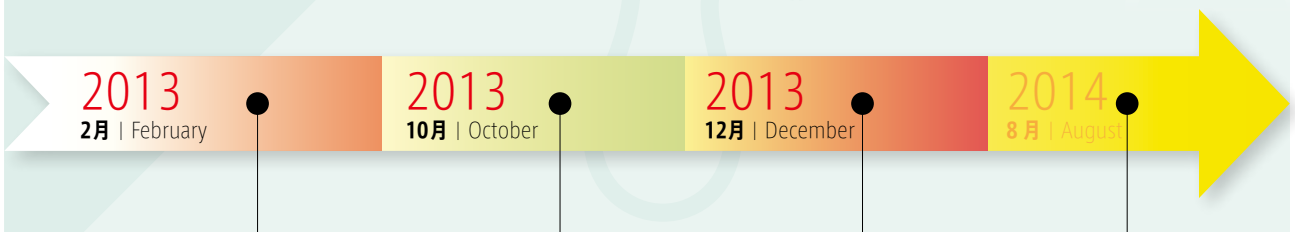

To accomplish that, a team of estimated 70 liaison persons was established in the hospital; a special fund, allocated; and a series of regulations, issued. Based on the baseline evaluations, general action plans and work schedules were worked out, which were to be accomplished together with the department-based specific plans and actions.

关注患儿就医体验三年行动计划

Initiating a Three-year Action Plan for Empathy on the Part of the Pediatrician

医院围绕和贯彻上海卫生系统推出的“精细化”十条服务举措，以“一切为了孩子”为核心，以“扎扎实实为群众服务，提高患者满意率和增强职工凝聚力和荣誉感”为目标，2013年初正式推出“关注患儿就医体验”三年行动计划，并成立全国卫生行业首个“患儿体验部”。3月24日在门诊大厅举行启动仪式，上海市精神文明办主任燕爽、复旦大学副校长桂永浩、上海市卫生计生委党委副书记邬惊雷、复旦大学党委宣传部部长萧思健、复旦大学上海医学院副院长夏景林等领导出席。通过设立倾听窗口、组建社会观察团、开通医院官方微博，拍摄微电影等十大举措，让患儿和家属体会到温馨服务，细致服务，让员工体验成就感，提升医院文化软实力。医院凭借“关注患儿就医体验，倾听学习改善细节”案例，荣膺“民意烁金，大数有道”为主题的“金铃奖”之“倾听民意政府奖”。

On March 24, 2013, a three-year action plan for empathy on the part of the pediatrician was launched in the Outpatient Department, which was witnessed by Director YAN Shuang of the Municipal Office of Spiritual Civilization, Vice-president GUI Yonghao of Fudan University, and others concerned. To accomplish the plan, a functional department was established as a pioneer in the country. Through ten theme activities, the pediatricians attempted to bring healing and comfort to their child patients and their worried families, thus developing a sense of accomplishment among themselves. For this, the hospital won a couple of awards issued by the city government.

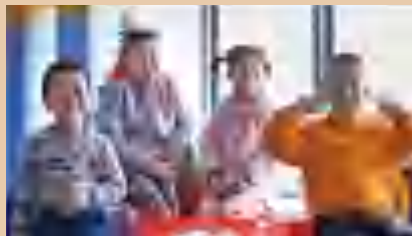

每一项流程的改进，都让患儿和家属感受到真切的变化。过去我们常常在治疗过程中遇到的问题，现在都被放到了前面。我们强化了我们的聆听机制，让每一个细小的问题得以及时的解决。

Any improvement made in the medical procedure is highly appreciated by child patients and their worried families. The positive feedback can reinforce the listening mechanism intended to improve the patient-relationship in the hospital.

管理建设与改进 Construction and Improvement in Management

“专科化、标准化、信息化、国际化”是医院发展的重要路径，是建设亚洲一流儿科医学中心的重要举措，通过全院共同努力探索及行动，医院管理效能得到提升。

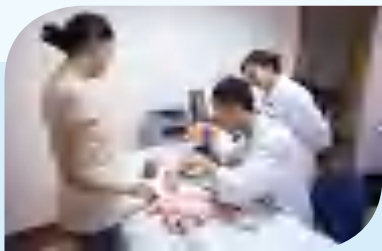

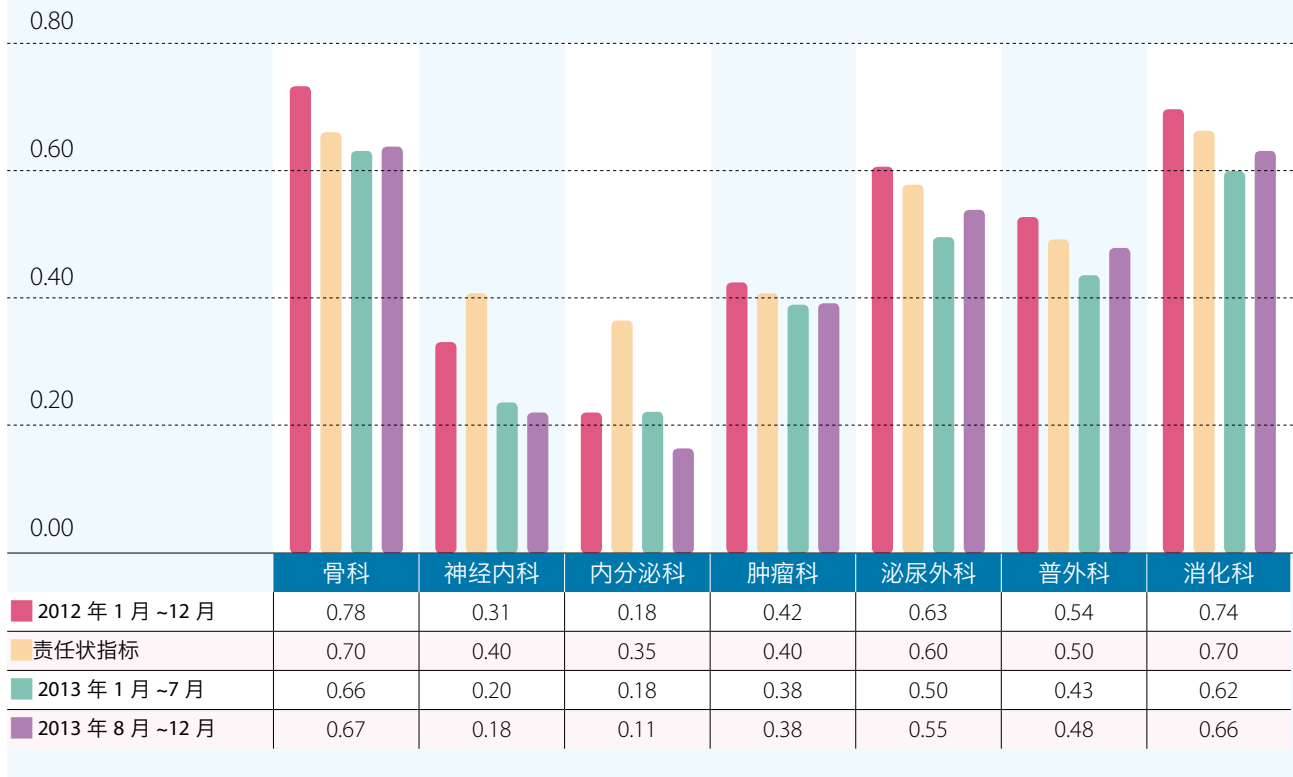

2013年，在中国最佳医院专科排行榜中，综合排名首次居全国儿童医院榜首，儿内科继续名列第一，儿外科继续名列第二。我院继续加强对于医疗安全的管理，组织开展各类医疗安全方面的院内培训；继续将临床主治医生和副主任医生的督导查房作为常规的重点工作，继续促进专业的健康发展，确保所开展的新技术有资质，对已获批准的项目进行监管和复查；采取各种措施进行医疗安全防范和纠纷处置。完善抗菌药物使用规范化管理，减少住院抗生素的使用率，并加强对输血的科学管理。

Children's Hospital adopts the four approaches of specialization, standardization, informatization and internalization to its further growth and development towards becoming one of the top-ranking pediatric centers in Asia. This significant goal is to be achieved by the staff's collective effort and the elevated management efficiency. In 2013, Children's Hospital topped the list of the best pediatric institutions in terms of comprehensive capacity across the country, with the discipline of pediatric medicine ranked the first and pediatric surgery the second as before, respectively. Such recognitions were ascribed to the reinforced management on medical safety; the training workshops on medical safety; the supervision on the rounds of the wards by attending physicians and deputy physicians; the qualifications of new technologies; the surveillance and review of the on-going projects; the prompt and proper disposals of medicolegal disputes; the standardized management of antibiotics; and the well managed blood transfusion.

2013年，我院作为上海市唯一定点儿童收治人感染H7N9禽流感患者的专科医院，顺利完成传染病防控工作。医院各项工作继续稳步推进，有序发展。

In 2013, Children's Hospital had the privilege of being authorized to receive children with H7N9 avian flu and well recognized for its endeavor in preventing and controlling the medical problem.

4月3日 / April 3

下午3点，我院传染科收治了一位3岁7个月的本市男童，入住传染科病房后，经过五天抗病毒治疗，患儿体温正常、胃口良好，各项化验结果和胸片检查均为正常。为了进一步判断患儿是否痊愈，经市专家组和我院专家组会诊讨论，于4月8-9日连续两次将患儿的鼻咽拭子送检上海市CDC流感病毒实验中心检测H7N9禽流感病毒核酸，复查结果均为阴性，报告上海市卫生和计划生育委员会，患儿于4月10日下午14点治愈出院。至此上海首例人感染H7N9禽流感患者痊愈出院。

The Department of Infectious Diseases received a boy aged three years and seven months. Upon a five-day anti-viral treatment, his temperature was back to normal, and his appetite returned. The laboratory reports and chest film indicated nothing abnormal. For confirmation, the nasopharyngeal swab was sent to the Experimental Center on Influenza Virus, Shanghai CDC to detect the nucleic acid on April 8 & 9, respectively. The results turned out to be negative, which was reported to Shanghai Health and Family Planning Commission. On April 10, the boy as the first case of H7N9 avian flu in Shanghai was discharged from the hospital.

科研创新 Pediatric Advances

今年继续顺利推进“985”三期学科平台建设，围绕生殖与发育开展研究。新引进2位双聘PI，以促进我院学科交叉和转化医学研究发展。为了建立高水平的出生缺陷基础研究与转化医学研究的基地、专业人才培养和出生缺陷防治的示范基地，我院申报的“上海市出生缺陷防治重点实验室”于8月通过上海市科委专家论证并立项。今年还新增小儿外科和临床护理2个国家临床重点专科，使我院拥有的国家临床重点专科数量居全国儿童医院前列。2013年科研中标项目纵向基金47项，横向基金11项，经费5900万元。在European Heart Journal, PLoS one等国际重点学术期刊发表SCI论文120多篇。医院在新生儿缺氧缺血性脑病、胆道闭锁、川崎病冠状动脉病变、早产儿护理等研究取得重要进展，分别获得7项科研成果类奖项。国家自然科学基金18项立项，其中青年项目7项。

While promoting the stage-3 construction of “985” and advancing the research on reproduction and development in 2013, we brought in two concurrent principal investigators for further research on interdisciplinary and translational medicine at Children’s Hospital; we won the municipal project approval for Shanghai Key Laboratory on Birth Defects’ Prevention and Treatment, which would function as a basis for the basic research on birth defect and translational medicine as well as for the corresponding trainees; we had the honor of establishing two more national key clinical disciplines, pediatric surgery and clinical nursing so that Children’s Hospital topped the others in number across the country; we acquired 47 longitudinal funds and 11 transverse ones (18 funds from the National Natural Science Foundation) for medical research in the total amount of RMB59,000,000, publishing over 120 SCI papers in *European Heart Journal*, *PLoS One* and others and receiving 7 awards for the significant accomplishments in hypoxic-ischemic encephalopathy of newborns, nursing care for premature infants, biliary atresia, and Kawasaki disease with coronary artery disease.

编后语

From the Editor

2013年，是医院实施“十二五”发展计划的攻坚之年，医院坚持以邓小平理论、“三个代表”重要思想、科学发展观为指导，积极贯彻落实党的十八大精神，按照“立足上海、服务全国、辐射亚洲”的战略定位，坚持“专科化、标准化、信息化和国际化”的发展战略，秉承“一切为了孩子”的服务宗旨，着力提高医院服务和管理效能，医院医、教、研及管理等各项事业全面发展。2014年，医院将深入贯彻落实十八届三中全会精神，深入推进“十二五”计划各项工作。医院将继续秉持“一切为了孩子”的办院宗旨，坚持公立医院公益性办院方向，继续推行“专科化、标准化、信息化、国际化”的发展路径，全面促进医院可持续发展，坚定地建设亚洲一流的儿童医学中心的目标前进。

We are proud of the achievements and accomplishments we have made in the past year of 2013 under the guidance of the 12th Five-year Plan, the Three Representative Theory, the Scientific Outlook on Development, and the Eighteenth National Congress of the CPC. We ascribe the results achieved in management efficiency, clinical practice, and medical research and education to the strategic positioning of Children's Hospital to expand the local pediatric service to the whole country and to Asia; the adherence to development strategy of specialization, standardization, informatization and internalization; and the deep commitment to the basic mission: To care for children. In the upcoming year of 2014, we will continue to stretch ourselves toward the hospital of one which is to be built into the most advanced pediatric center in Asia.
